SPECIFIC TARGET ORGANS TOXICITY (STOT): Single exposure (SE) and/or Repeated exposure (RE): Not classified as a dangerous product for target organs (based on available data, the classification criteria are not met). CMR EFFECTS: Carcinogenic effects: # Is not considered as a carcinogenic product. Genotoxicity: # Is not considered as a mutagenic product. Toxicity for reproduction: # Do not harm fertility. Do not harm the fetus developping. Effects via lactation: Not classified as a hazardous product for children breast-fed. DELAYED AND IMMEDIATE EFFECTS AS WELL AS CHRONIC EFFECTS FROM SHORT AND LONG-TERM EXPOSURE: Routes of exposure: # Irritating to respiratory system. Risk of serious damage to eyes. Irritating to skin. Long-term or repeated exposure: # Not available.								

MATERIAL SAFETY DATA SHEET (REACH) # In accordance with Regulation (EC) No. 1907/2006 and Regulation (EU) No. 2015/830

SECTION 12	: ECOLOGICAL INFORMATION					
No experimental ecotoxicological data on the preparation as such is available. The ecotoxicological classification for these mixture has been carried out by using the conventional calculation method of the Regulation (EC) No. 1272/2008~605/2014 (CLP).						
12.1 <u>TOX</u>	1 <u>TOXICITY:</u>					
for ir Not : Not : Not : Lowe	e toxicity in aquatic environment idividual ingredients : available <u>bserved effect concentration</u> available est observed effect concentration available					
	SISTENCE AND DEGRADABILITY:					
12.3 BIO/ Not	ACCUMULATIVE POTENTIAL: available.					
	SILITY IN SOIL:					
	ULTS OF PBT AND VPVB ASSESMENT: Annex XIII of Regulation (EC) no. 1907/2006: trapplicable (inorganic mixture).					
Ozor Phot Eart	ER ADVERSE EFFECTS: <u>ne depletion potential:</u> Not available. <u>ochemical ozone creation potential:</u> Not available. <u>o global warming potential:</u> Not available. <u>ocrine disrupting potential:</u> Not available.					
SECTION 13	: DISPOSAL CONSIDERATIONS					
Take disc curr Disp # Er haze Cha sam Proc	STE_TREATMENT METHODS: * Directive 2008/98/EC-Regulation (EU) no. 1357/2014: and Incexessary measures to prevent the production of waste whenever possible. Analyse possible methods for revaluation or recy and in darians or the environment, dispose of at an authorised waste collection point. Waste should be handled and disposed of an it local and national regulations. For exposure controls and personal protection measures, see section 8. Scal of empty containers: * Directive 94/82/EC-2005/20/EC, Decision 2000/532/EC-2014/955/EU. The domain of the degree of empting of the same, being the holder of the residue responsible for their classification of the object of 0 in decordance with currently local and national regulations. The classification of the degree of empting of the appropriate final destination. With contaminated containers and package is and towarding to the appropriate final destination. With contaminated containers and package is a not in set. edures for neutralising or destroying the product: orised landtill in accordance with local regulations.	of in accordance with tion of packaging as ,)in accordance with
