SECTION	I 7 : HANDLING AND STORAGE
C C C C C F T ii: a c C F C F C F F	PRECAUTIONS FOR SAFE HANDLING: Comply with the existing legislation on health and safety at work. General recommendations: Jsual protection measures for handling chemicals must be adopted. Handle and open container with care. Handle with care, avoiding any discharge. Keep the container tightly closed. Recommendations for the prevention of fire and explosion risks: The product is not liable to ignite, deflagrate or explode, and does not sustain the combustion reaction by oxygen from air in the environment in which it s, so it is not included in the scope of Directive 94/9/EC concerning equipment and protective systems intended for use in potentially explosive atmospheres. Also they are not applicable the provisions of the ITC MIE BT-29 on the detailed requirements for electrical installations in locals with risk of fire or explosion. Recommendations for the prevention of toxicological risks: Do not eat, drink or smoke in application and drying areas. After handling, wash hands with soap and water. For exposure controls and personal protection measures, see section 8. Recommendations for the prevention of environmental contamination: Avoid any spillage in the environment. In the case of accidental spillage, follow the instructions indicated in section 6.
	CONDITIONS FOR SAFE STORAGE, INCLUDING ANY INCOMPATIBILITIES:         Keep out of reach of children. In order to avoid leakages, the containers, after use, should be closed carefully and placed in a vertical position. Keep container tightly closed. For more information, see section 10.         Class of store       : According to current legislation.         Class of store       : Maximum storage period         Comparison of children       : min: 5. °C, max: 30. °C (recommended).         Compatible materials:       : min: 5. °C, max: 30. °C (recommended).         Sealed containers. The use of unsuitable materials (eg. iron, aluminium, etc) may cause the product to darken.         Imit quantity (Seveso III):       # Directive 2012/18/EU:         * No aplicable.       : No aplicable.
	SPECIFIC END USES: or the use of this product do not exist particular recommendations apart from that already indicated.

	MATERIAL SAFETY DATA SHEET REGULATIONS: Material Safety Data Sheet in accordance with Article 31 of Regulation (EC) No. 1907/2006 (REACH) and Annex of Regulation (EU) No. 2015/830.
	HISTORY:         Revision:           Version:         9         23/11/2015           Version:         10         23/11/2016
	Modifications with respect to the previous Material Safety Data Sheet: # The possible legislative, contextual, numerical, methodological and normative changes with respect to the previous version are highlighted in this Material Safety Data Sheet by a mark # in red and italic.
The info	prmation of this Material Safety Data Sheet, is based on the present state of knowledge and on current UE and national laws, as the users' working

conditions are beyond our knowledge and control. The product is not to be used for other purposes than those specified, without first obtaining written handling instruction. It is always the responsibility of the user to take all necessary steps in order to fulfil the demand laid down in the local rules and legislation. The information in this Material Safety Data Sheet is meant as a description of the safety requirements of the product and it is not to be considered as a guarantee of the product's properties.
