1.2	<ul> <li>RELEVANT IDENTIFIED USES AND USES ADVISED AGAINST: Intended uses (main technical functions): Masilla.</li> <li>Sectors of use: # Consumer uses (SU21).</li> <li>Uses advised against: # This product is not recommended for any use or sector of use industrial, professional or consume other than those previously listed as 'Intended or identified uses'.</li> <li>Restrictions on manufacture, placing on market and use, according to Annex XVII of Regulation (EC) No. 1907/2006:</li> <li># Contains chromium(VI) compounds: 1. Cement and cement-containing mixtures shall not be placed on the market, or used, if they contain, when hydrated, more than 2 mg/kg (0,0002%) soluble chromium(VI) of the total dry weight of the cement. 2. If reducing agents are used, then without prejud to the application of other Community provisions on the classification, packaging and labelling of substances and mixtures, suppliers shall ensure befor the placing on the market that the packaging of cement or cement-containing mixtures is visibly, legibly and indelibly marked with information on the packing date, as well as on the storage conditions and the storage period appropriate to maintaining the activity of the reducing agent and to keeping t content of soluble chromium(VI) below the limit indicated in paragraph 1. 3. By way of derogation, paragraphs 1 and 2 shall not apply to the placing on market for, and use in, controlled closed and totally automated processes, in which cement and cement-containing mixtures are handled solely by machines and in which there is no possibility of contact with the skin . The restrictions do not apply to storage, keeping, treatment, filling into container or transfer from one container to another of the substances for export.</li> </ul>

ECTIC	ON 4 : FIRST AID ME								
1	# Syn medic		posure to the product, when in doubt, or when symptoms persist, seek person. Lifeguards should pay attention to self-protection and use the sure. Wear protective gloves when administering first aid.						
	Route of exposure	Symptoms and effects, acute and delayed	Description of first-aid measures						
	Inhalation:	<i>#</i> Inhalation of dust produces irritation to mucus, coughing and breathlessness.	In case of dust inhalation, remove the patient out of the contaminated area into the fresh air. If there is difficulty in breathing, apply oxygen. If necessary, artificial respiration. If breathing is irregular or stops, administer artificial respiration. I the person is unconscious, place in appropriate recovery position.						
	Skin:	# Skin contact causes redness and pain.	Wash with water and soap. Do not use solvents or thinners.						
	Eves:	Contact with the eyes produces redness and pain.	# Remove contact lenses. Rinse eyes copiously by irrigation with plenty of clean, fresh water for at least 15 minutes, holding the eyelids apart, until the irritation is reduced. Call a physician immediately.						
	Ingestion:	If swallowed, may cause irritation of the mouth and throat, abdominal pain, vomiting and diarrhoea.	# If swallowed, seek medical advice immediately and show container or label. Do not induce vomiting. Keep the patient at rest.						
2	MOST IMPORTANT The main symptoms	SYMPTOMS AND EFFECTS, BOTH ACUTE AND DELAYED and effects are indicated in sections 4.1 and 11

SECTIO	SECTION 5 : FIRE-FIGHTING MEASURES							
Not cor	Not combustible.							
5.1	Exting	EXTINGUISHING MEDIA: Extinguishing powder or CO2. In the case of more important fires, also alcohol resistant foam and water spray/mist. Do not use for extinguishing: direct water jet.						
5.2	SPECIAL HAZARDS ARISING FROM THE SUBSTANCE OR MIXTURE: However, if it is located in a fire, may sustain combustion, decompose and give off toxic or irritant vapours.							
5.3	5.3 ADVICE FOR FIREFIGHTERS: Special protective equipment: Depending on magnitude of fire, heat-proof protective clothing may be required, appropriate independent breathing apparatus, gloves, protective glasses or face masks and boots. If the fire-proof protective equipment is not available or not used, combat fire from a sheltered position or at a safe distance. The standard EN469 provides a basic level of protection for chemical incidents. Other recommendations: Cool with water the tanks, cisterns or containers close to sources of heat or fire. Bear in mind the direction of the wind. Do not allow fire-fighting residue to enter drains, sewers or water courses.							
SECTIO	ON 6 : /	ACCIDENTAL RELEASE MEASURES						
6.1		ONAL PRECAUTIONS, PROTECTIVE EQUIPMENT AND EMERGENCY PROCEDURES: I direct contact with this product. Avoid breathing dust.						
6.2	Avoid	RONMENTAL PRECAUTIONS: I contamination of drains, surface or subterranean water and soil. In the case of large scale spills or when the product contamina ges, inform the appropriate authorities in accordance with local regulations.	tes lakes, rivers or					
6.3	Conta	HODS AND MATERIAL FOR CONTAINMENT AND CLEANING UP: ain and mop up spills with electrically-protected vacuum cleaner or by wet brushing. Do not use a dry brush as dust clouds can b vents. Keep the remains in a closed container.	e created. Avoid use					
6.4	For co For in For ex	RENCE TO OTHER SECTIONS: ontact information in case of emergency, see section 1. formation on safe handling, see section 7. xposure controls and personal protection measures, see section 8. ubsequent waste disposal, follow the recommendations in section 13.						
SECTIO	ON 7 : I	HANDLING AND STORAGE						
7.1	Comp Gener Avoid Recor Recor Do no or foo Recor	AUTIONS FOR SAFE HANDLING: by with the existing legislation on health and safety at work. ral recommendations: I any type of leakage or escape. Dust generation should be minimized as possible. <u>mmendations for the prevention of fire and explosion risks:</u> <u>mmendations for the prevention of toxicological risks:</u> <u>ot eat, drink or smoke while handling.
