Mau	REVESTIMIE Code: 50261	NTO ELÁSTICO MACYFLEX GAMA COLORES							
SECTI	ON 4 : FIRST AID MEAS	URES							
4.1	DESCRIPTION OF FIRS	ST-AID MEASURES:							
		ns may occur after exposure, so that in case of direct exposure attention. Never give anything by mouth to an unconscious per	e to the product, when in doubt, or when symptoms persist, seek rson.						
	Route of exposure Symptoms and effects, acute and delayed Description of first-aid measures								
	Inhalation:Normaly does not produce symptoms.Should there be any symptoms, transfer the person affected to the open air.								
	Skin: Normaly does not produce symptoms. Remove contaminated clothing. Wash thoroughly the at area with plenty of cold or lukewarm water and neutral s use a suitable skin cleanser. Do not use solvents or thir								
	Eves: Normaly does not produce symptoms. Remove contact lenses. Rinse eyes copiously by plenty of clean, fresh water, holding the eyelids a persists, consult a physician.								
	Ingestion:	If swallowed in high doses, may cause gastrointestinal disturbances.	If swallowed, seek immediate medical attention. Do not induce vomiting, due to the risk of aspiration. Keep the patient at rest.						
4.2		MPTOMS AND EFFECTS, BOTH ACUTE AND DELAYED: d effects are indicated in sections 4.1 and 11							
4.3	Notes to physician: Tre	MEDIATE MEDICAL ATTENTION AND SPECIAL TREATME eatment should be directed at the control of symptoms and the ications: Specific antidote not known.							
SECTI	ON 5 : FIRE-FIGHTING N	IEASURES							
5.1	EXTINGUISHING MEDI In the case of fire in the	<u>A:</u> surroundings, all extinguishing agents are allowed.							
5.2	SPECIAL HAZARDS ARISING FROM THE SUBSTANCE OR MIXTURE: As consequence of combustion or thermal decomposition, hazardous products may be produced: carbon monoxide, carbon dioxide. Exposure to combustion or decomposition products may be a hazard to health.								
5.3	5.3 <u>ADVICE FOR FIREFIGHTERS:</u> <u>Special protective equipment:</u> Depending on magnitude of fire, heat-proof protective clothing may be required, appropriate independent breathing apparatus, gloves, protective glasses or face masks and boots. If the fire-proof protective equipment is not available or not used, combat fire from a sheltered position or at a safe distance. The standard EN469 provides a basic level of protection for chemical incidents. <u>Other recommendations:</u> Cool with water the tanks, cisterns or containers close to sources of heat or fire. Bear in mind the direction of the wind. Do not allow fire-fighting residue to enter drains, sewers or water courses.								
SECTI	ON 6 : ACCIDENTAL RE	LEASE MEASURES							
6.1		ONS, PROTECTIVE EQUIPMENT AND EMERGENCY PROC n this product. The floor may become slippery.	EDURES:						
6.2			arge scale spills or when the product contaminates lakes, rivers or						
6.3	METHODS AND MATERIAL FOR CONTAINMENT AND CLEANING UP: Contain and mop up spills with absorbent materials (sawdust, earth, sand, vermiculite, diatomaceous earth, etc). Avoid use of solvents. Keep the remains in a closed container.								
6.4	For information on safe For exposure controls a	In case of emergency, see section 1. handling, see section 7. nd personal protection measures, see section 8. disposal, follow the recommendations in section 13.

SECTIO	N 16 : OTHER INFORMATION
	TEXT OF THE PHRASES AND NOTES REFERENCED IN SECTIONS 2 AND/OR 3: Hazard statements according the Regulation (EC) No. 1272/2008~605/2014 (CLP), Annex III: H301 Toxic if swallowed. H302 Harmful if swallowed. H311 Toxic in contact with skin. H314 Causes severe skin burns and eye damage. H315 Causes skin irritation. H317 May cause an allergic skin reaction. H318 Causes serious eye damage. H331 Toxic if inhaled. H400 Very toxic to aquatic life. H410 Very toxic to aquatic life with long lasting effects. H351 Suspected of causing cancer. H372i Causes damage to organs through prolonged or repeated exposure if inhaled. ADVICES ON ANY TRAINING APPROPRIATE FOR WORKERS:
	It is recommended for all staff that will handle this product to carry out a basic training in occupational risk and prevention, in order to provide understanding and interpretation of material safety data sheets and labelling of products as well.
	 European Chemicals Agency: ECHA, http://echa.europa.eu/ Access to European Union Law, http://eur-lex.europa.eu/ Threshold Limit Values, (AGCIH, 2014).
	ABBREVIATIONS AND ACRONYMS: List of abbreviations and acronyms that can be used (but not necessarily used) in this material safety data sheet:
	 REACH: Regulation concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals. DSD: Dangerous Substances Directive. DPD: Dangerous Preparations Directive. GHS: Globally Harmonized System of Classification and Labelling of Chemicals of the United Nations. CLP: European regularion on Classificatin, Labelling and Packaging of substances and chemical mixtures. EINECS: European Inventory of Existing Commercial Chemical Substances. ELINCS: European List of Notified Chemical Substances. CAS: Chemical Abstracts Service (Division of the American Chemical Society). UVCB: Substances of Unknown or Variable composition, complex reaction products or biological materials).
	 SVHC: Substances of Very High Concern. PBT: Persistent, bioaccumulable and toxic substances. vPvB: Very persistent and very bioaccumulable substances. VOC: Volatile Organic Compounds. DNEL: Derived No-Effect Level (REACH). PNEC: Predicted No-Effect Concentration (REACH). LD50: Letal dose, 50 percent. LC50: Letal concentration, 50 percent. UN: United Nations Organisation.
	 ADR: European agreement concerning the international carriage of dangeous goods by road. RID: Regulations concerning the international transport of dangeous goods by rail. IMDG: International Maritime code for Dangerous Goods. IATA: International Air Transport Association. ICAO: International Civil Aviation Organization.
	 # Material Safety Data Sheet in accordance with Article 31 of Regulation (EC) No. 1907/2006 (REACH) and Annex of Regulation (EU) No. 2015/830. HISTORY: Revision: 2 24/03/2015
	Version: 3 13/10/2016 <u>Modifications with respect to the previous Material Safety Data Sheet:</u> # The possible legislative, contextual, numerical, methodological and normative changes with respect to the previous version are highlighted in this
	Material Safety Data Sheet by a mark # in red and italic.
The info	rmation of this Material Safety Data Sheet, is based on the present state of knowledge and on current UE and national laws, as the users' working

conditions are beyond our knowledge and control. The product is not to be used for other purposes than those specified, without first obtaining written handling instruction. It is always the responsibility of the user to take all necessary steps in order to fulfil the demand laid down in the local rules and legislation. The information in this Material Safety Data Sheet is meant as a description of the safety requirements of the product and it is not to be considered as a guarantee of the product's properties.
