3.2	MIXTURES: This product is a mixture.
	<u>Chemical description:</u> Mixture of pigments, extenders, resins and additives in aqueous media.
	HAZARDOUS INGREDIENTS: Substances taking part in a percentage higher than the exemption limit: None
	Impurities: Does not contain other components or impurities which will influence the classification of the product.
	Stabilizers: None
	Reference to other sections: For more information, see sections 8, 11 and 12.
	SUBSTANCES OF VERY HIGH CONCERN (SVHC): # List updated by ECHA on 20/06/2016.
	Substances SVHC subject to authorisation, included in Annex XIV of Regulation (EC) no. 1907/2006: None Substances SVHC candidate to be included in Annex XIV of Regulation (EC) no. 1907/2006:
	None PERSISTENT, BIOACCUMULABLE AND TOXIC PBT, OR VERY PERSISTENT AND VERY BIOACCUMULABLE VPVB SUBSTANCES:
	Does not contain substances that fulfill the PBT/vPvB criteria.

## MATERIAL SAFETY DATA SHEET (REACH)

In accordance with Regulation (EC) No. 1907/2006 and Regulation (EU) No. 2015/830

C PINTURA DEPORTIVA "SPORT" Macy Code: 70073 **SECTION 4 : FIRST AID MEASURES** 4.1 **DESCRIPTION OF FIRST-AID MEASURES:** Symptoms may occur after exposure, so that in case of direct exposure to the product, when in doubt, or when symptoms persist, seek medical attention. Never give anything by mouth to an unconscious person. Route of exposure Symptoms and effects, acute and delayed Description of first-aid measures Inhalation: Normaly does not produce symptoms. Should there be any symptoms, transfer the person affected to the open air. Skin: In case of prolonged contact, the skin may become dry. Remove contaminated clothing. Wash thoroughly the affected area with plenty of cold or lukewarm water and neutral soap, or use a suitable skin cleanser. Do not use solvents or thinners. Contact with the eyes produces redness and pain. Remove contact lenses. Rinse eyes copiously by irrigation with Eves: plenty of clean, fresh water, holding the eyelids apart. If irritation persists, consult a physician. Ingestion: If swallowed in high doses, may cause gastrointestinal If swallowed, seek immediate medical attention. Do not induce vomiting, due to the risk of aspiration. Keep the patient at rest. disturbances. 4.2 MOST IMPORTANT SYMPTOMS AND EFFECTS, BOTH ACUTE AND DELAYED: The main symptoms and effects are indicated in sections 4.1 and 11 INDICATION OF ANY IMMEDIATE MEDICAL ATTENTION AND SPECIAL TREATMENT NEEDED: 4.3 Notes to physician: Treatment should be directed at the control of symptoms and the clinical condition of the patient. Antidotes and contraindications: Specific antidote not known. **SECTION 5 : FIRE-FIGHTING MEASURES** 5.1 **EXTINGUISHING MEDIA** # In the case of fire in the surroundings, all extinguishing agents are allowed. 5.2 SPECIAL HAZARDS ARISING FROM THE SUBSTANCE OR MIXTURE: As consequence of combustion or thermal decomposition, hazardous products may be produced: carbon monoxide, carbon dioxide. Exposure to combustion or decomposition products may be a hazard to health. 5.3 ADVICE FOR FIREFIGHTERS Special protective equipment: Depending on magnitude of fire, heat-proof protective clothing may be required, appropriate independent breathing apparatus, gloves, protective glasses or face masks and boots. If the fire-proof protective equipment is not available or not used, combat fire from a sheltered position or at a safe distance. The standard EN469 provides a basic level of protection for chemical incidents. Other recommendations: Cool with water the tanks, cisterns or containers close to sources of heat or fire. Bear in mind the direction of the wind. Do not allow fire-fighting residue to enter drains, sewers or water courses. **SECTION 6 : ACCIDENTAL RELEASE MEASURES** PERSONAL PRECAUTIONS, PROTECTIVE EQUIPMENT AND EMERGENCY PROCEDURES: 6.1 Avoid direct contact with this product. The floor may become slippery. 6.2 ENVIRONMENTAL PRECAUTIONS: Avoid contamination of drains, surface or subterranean water and soil. In the case of large scale spills or when the product contaminates lakes, rivers or sewages, inform the appropriate authorities in accordance with local regulations. 6.3 METHODS AND MATERIAL FOR CONTAINMENT AND CLEANING UP: # Contain and mop up spills with absorbent materials (sawdust, earth, sand, vermiculite, diatomaceous earth, etc..). Avoid use of solvents. Keep the remains in a closed container. **REFERENCE TO OTHER SECTIONS:** 6.4 For contact information in case of emergency, see section 1. For information on safe handling, see section 7. For exposure controls and personal protection measures, see section 8. For subsequent waste disposal, follow the recommendations in section 13.

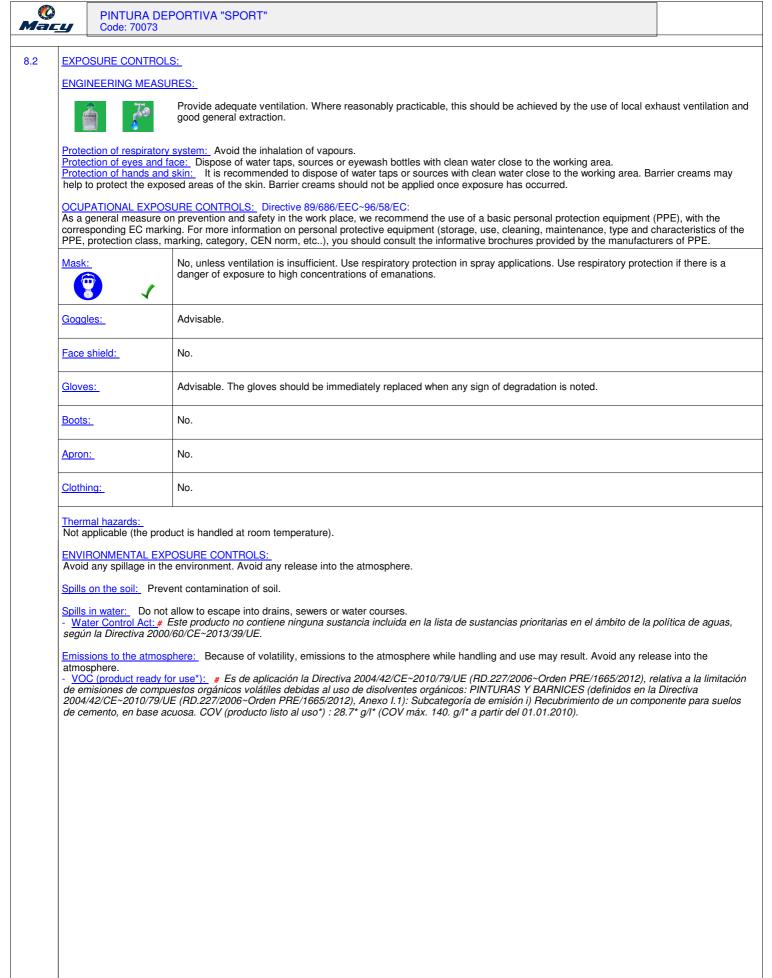

Mac	PINTURA DEPORTIVA "SPORT" Code: 70073	
SECTIO	ION 7 : HANDLING AND STORAGE	
	PRECAUTIONS FOR SAFE HANDLING:         Comply with the existing legislation on health and safety at work.         General recommendations:         # Avoid any type of leakage or escape. Keep the container tightly closed.         Recommendations for the prevention of fire and explosion risks:         Although due its low flammability does not represent a serious risk of fire, all type of measures should be taken in order to avoid any post Recommendations for the prevention of toxicological risks:         Do not eat, drink or smoke in application and drying areas. After handling, wash hands with soap and water. For exposure controls and p protection measures, see section 8.         Recommendations for the prevention of environmental contamination:         It is not considered a danger to the environment. In the case of accidental spillage, follow the instructions indicated in section 6.	
- - - -	CONDITIONS FOR SAFE STORAGE, INCLUDING ANY INCOMPATIBILITIES:         # Forbid the entry to unauthorized persons. Keep out of reach of children. Keep away from sources of heat. If possible, avoid direct containers, after use, should be closed carefully and placed in a vertical position. For more information, so class of store         In order to avoid leakages, the containers, after use, should be closed carefully and placed in a vertical position. For more information, so class of store         Maximum storage period       : # According to current legislation.         Maximum storage period       : min: 5. °C, max: 30. °C (recommended).         Incompatible materials:       .         Keep away from oxidixing agents, from strongly alkaline and strongly acid materials.         Type of packaging:       .         According to current legislation.         Limit quantity (Seveso III): # Directive 2012/18/EU:         # No aplicable.	act with sunlight. ee section 10.
	SPECIFIC END USES: For the use of this product do not exist particular recommendations apart from that already indicated.
