Macy	SATINADO CAMPEON "HYGIENIC" Code: 27196
SECTION	5 : FIRE-FIGHTING MEASURES
	TINGUISHING MEDIA:
	PECIAL HAZARDS ARISING FROM THE SUBSTANCE OR MIXTURE: oes not represent a serious fire danger. However, if it is located in a fire, may sustain combustion, decompose and give off toxic or irritant vapours.
sr ar Sr	DVICE FOR FIREFIGHTERS: <u>becial protective equipment</u> . Depending on magnitude of fire, heat-proof protective clothing may be required, appropriate independent breathing paratus, gloves, protective glasses or face masks and boots. If the fire-proof protective equipment is not available or not used, combat fire from a neltered position or at a safe distance. The standard EN469 provides a basic level of protection for chemical incidents. <u>ther recommendations</u> : Cool with water the tanks, cisterns or containers close to sources of heat or fire. Bear in mind the direction of the wind. Do not low fire-fighting residue to enter drains, sewers or water courses.
SECTION	6 : ACCIDENTAL RELEASE MEASURES
	ERSONAL PRECAUTIONS, PROTECTIVE EQUIPMENT AND EMERGENCY PROCEDURES: void direct contact with this product. The floor may become slippery.
A	VVIRONMENTAL PRECAUTIONS: void contamination of drains, surface or subterranean water and soil. In the case of large scale spills or when the product contaminates lakes, rivers or awages, inform the appropriate authorities in accordance with local regulations.
C	ETHODS AND MATERIAL FOR CONTAINMENT AND CLEANING UP: ontain and mop up spills with absorbent materials (sawdust, earth, sand, vermiculite, diatomaceous earth, etc). Avoid use of solvents. Keep the mains in a closed container.
Fo Fo	EFERENCE TO OTHER SECTIONS: or contact information in case of emergency, see section 1. or information on safe handling, see section 7. or exposure controls and personal protection measures, see section 8. or subsequent waste disposal, follow the recommendations in section 13.
SECTION	7 : HANDLING AND STORAGE
Ci Gi U K R R D P P R	AECAUTIONS FOR SAFE HANDLING: omply with the existing legislation on health and safety at work. <u>eneral recommendations:</u> sual protection measures for handling chemicals must be adopted. Handle and open container with care. Handle with care, avoiding any discharge. exercise the container tightly closed. <u>ecommendations for the prevention of fire and explosion risks:</u> ot applicable. <u>ecommendations for the prevention of toxicological risks:</u> o not eat, drink or smoke in application and drying areas. After handling, wash hands with soap and water. For exposure controls and personal otection measures, see section 8. <u>ecommendations for the prevention of environmental contamination:</u> void any spillage in the environment. In the case of accidental spillage, follow the instructions indicated in section 6.
	ONDITIONS FOR SAFE STORAGE, INCLUDING ANY INCOMPATIBILITIES: eep out of reach of children. In order to avoid leakages, the containers, after use, should be closed carefully and placed in a vertical position. Keep ontainer tightly closed. For more information, see section 10. ass of store : According to current legislation. aximum storage period : # 24 months emperature interval : min: 5. °C, max: 30. °C (recommended). compatible materials: : eep away from acid products and strongly oxidizing agents. rpe of packaging: : ealed containers. The use of unsuitable materials (eg. iron, aluminium, etc) may cause the product to darken. mit quantity (Seveso III): Directive 2012/18/EU: : Directive 2012/18/EU:
	PECIFIC END USES: or the use of this product do not exist particular recommendations apart from that already indicated.
